

Get to know the Solostar 4...

It's Beautiful on the Inside Too

TRIBEST
Solostar 4

The Solostar 4 features an all-new breathtaking design coupled with intelligent engineering. Its gorgeous body is wrapped around an efficient drive system that produces more power while using less electricity. The low speed operation, cold-press squeezing action, and increased juice yields help you maximize your daily intake of enzymes, vitamins, and nutrients. It is the best horizontal single auger juicer in the world. Get to know the new Solostar 4, it's beautiful on the inside too.

TRIBEST Solostar 4

Horizontal Slow Masticating Juicer

Due to its smart design, the Solostar 4 crushes the competition by producing 33% more torque while using 20% less electricity. It has a gear reduction equivalent of a 5.8 HP motor. More torque means less jamming and less electricity means savings on your electric bill and your carbon footprint. You get additional savings by lowering your grocery bill, because the Solostar 4 produces up to 40% more juice from your favorite fruits and vegetables. The sleek, compact, and modern design takes up less space while looking beautiful on your kitchen countertop. And, since all food contact parts are made from BPA- and BPS-free materials, you don't have to worry about exposing your family to harmful chemicals. Each Solostar 4 also comes with a standard 15 year warranty, the longest warranty of its kind in the industry.

At only 47 RPM, the Solostar 4 is the slowest and gentlest horizontal single auger juicer on the market. The slow and gentle juicing process virtually eliminates all heat and oxidation, preserving more essential nutrients and live enzymes. This results in healthier, nutrient-dense juice. The class-leading auger size and Dual-Stage Extraction Process produce maximum juice yields. The Ultem auger is also 8x stronger than other types of plastic, which allows for an aggressive auger design that makes it easy to feed your produce into the juicer. So, you get better juice, more of it, and it's easier to use.

Features

- **More Juice-** Dual stage extraction and larger auger means more surface area to maximize yields
- **More Enzymes, Vitamins, and Minerals-** Extremely low speed of 47 RPM to prevent heat and oxidation
- **Less Jamming-** Gear reduction equivalent of a 5.8 HP motor with 33% more torque
- **More Kitchen Space-** Compact, sleek, and intelligent design with smaller footprint
- **More Savings-** 20% less electricity consumption and higher yields means more savings at the register
- **BPA-Free Materials-** All food contact parts are made from BPA- and BPS-free materials
- **Zstar Compatibility-** Compatible with the Tribest Zstar Manual Conversion Kit so you can take juicing on-the-go
- **15 Year Warranty-** Longest warranty of its kind in the industry
